Defined by Aviation.

Safety First. Safety Always.

WE PROVIDE THE FULL LIFE-CYCLE OF SERVICES, ACROSS TRAINING, CHARTER, & MAINTENANCE.

Tisdall Aviation Group brings together a market-leading stable of aviation organisations with a broad range of services that include: MROs, providing Part 145 and GA maintenance, charter and FBO operations, and RTOs providing CASA approved pilot and engineer training and licencing. Today, it symbolises three multi-disciplinary divisions dedicated to safe flight.

T A G A I R

Our charter and brokerage arm provides Australia-wide private flight, with an extensive Beechcraft and Cirrus fleet. Further, we offer Fixed Base Operation services, charter brokerage and hospitality facilities.

T A G M R O

Bringing together the turbine specialist Part 145 certified Pulse Aero, with our general aviation MRO, Flight Maintenance Australia, we provide a comprehensive repair, maintenance and overhaul service.

T A G E D U

Tisdall Aviation Group's education offering delivers a unique portfolio of training, from PPL to commercial pilot licencing, plus an Australian-first engineer training package designed to deliver outstanding young engineers into the sector.

GROUP HEADQUARTERS

QANTAS AVENUE, ARCHERFIELD AIRPORT

A GROUP DEFINED BY THE BEST OF AUSTRALIA'S AVIATION INDUSTRY.

Tisdall Aviation Group prides itself above all, on its people - choosing the best and most experienced leaders from Australia's aviation industry.

For more than a decade, the Tisdall Aviation Group has been servicing the Australian aviation industry as a safety-first, compliance-oriented operator and holder of multiple Civil Aviation Safety Authority (CASA) and Australian Skills Quality Authority (ASQA) approvals.

Within our group you can expect to find people enthusiastically embracing the future of global aviation - guided by safety and driven by passion.

Headquartered at Brisbane's Archerfield Airport, the group's dynamic national folio of capabilities includes domestic and international pilot training, engineer training and licencing, a nation-wide network of examination centres, aircraft maintenance operations, charter operations and FBO services.

With an underpinning philosophy of transparency and a clear focus on customer service, Tisdall Aviation Group is continuing to evolve as a significant, credible force in Australia's aviation industry.

LEARN THE SKILLS REQUIRED TO RUN A SAFE AVIATION BUSINESS.

Flight One Academy's aviation management programme is designed for evolving and expanding your career prospects in the industry.

Safely supervise or manage aviation operations and develop business management skills.

This qualification reflects the roles of aviation management personnel performing ground operations duties in support general or commercial aviation business activities. Aviation management duties include applying technical and non-technical aviation skills and knowledge in support of a wide range of aerodrome and air transport operations, including passenger, charter, cargo, emergency service and government operations.

Individuals working at this level will apply knowledge and skills to demonstrate autonomy, judgement and defined responsibility in aviation business contexts within broad but established parameters.

Why study Aviation Management with Flight One Academy?

Across our group, we run charter, maintenance and training activities in live aviation operations - providing you with real experience and extensive first-hand knowledge of managing aviation business activities.

THE KEY INFORMATION, SIMPLIFIED.

Course Duration

12 months, including opportunity to experience live aviation operations.

Location

ARCHERFIELD
Archerfield

Outcomes

AVI50616 - Diploma of Aviation (Aviation Management)

Is there funding?

Yes. Funding is available and more information can be found at flightoneacademy.edu.au

What are the entry requirements?

No ATAR score is required, however you must have completed Australian Year 12 or equivalent with passes in English & Mathematics. LLN assessment may be required.

Integrated with Industry, Serving Industry.

Our highly acclaimed Industry Services Team provides ongoing academic training and assessment services to engineers throughout their career to enable them to upgrade qualifications and to extend their approvals.

Delivered by Aviation Operators.

Tisdall Aviation Group has broad institutional experience derived from our charter, maintenance and education businesses, and we bring this collective learning to bear through our classes.

Training Delivered By Industry.

With access to live aviation operations, your training will include multiple opportunities to see and speak with managers, pilots and engineers to help expand your knowledge and passion for safety.

OUR LOCALE

Archerfield Airport Campus

Tisdall Aviation Group has been carrying out quality pilot training at Brisbane’s metropolitan airport, Archerfield, for over a decade. The airfield has a long history of aviation activity since its founding in the early 1900’s.

Once headquarters for numerous squadrons of British, American and Australian troops and pilots, Archerfield (YBAF) is a thriving commuter and training precinct in the city’s western corridor.

Flight One Academy’s campus accommodates a multi-modal learning environment, with access to resources permitting quality learning outcomes. Based at Archerfield airport alongside our wider Tisdall Aviation Group including MRO Flight Maintenance Australia, charter company Flight One and FBO, Contrails, our campus is authentically nestled within a full-stack, functioning aviation hub.

We are focused on providing a comprehensive training resource set. Our School of Engineering enjoys authentic aviation training equipment and access to live aircraft.

Our School of Aviation is equipped with an on-site flight simulator, skilled, customer oriented flight instructors and access to our extensive, modern multi- and single-engine aircraft fleet including Cirrus, Cessna, Beechcraft and Piper aircraft, largely maintained in-house by FMA.

This allows us to offer a uniquely practical training environment designed to provide graduates with hands-on experience and a diverse array of relevant skills.

METROPOLITAN AIRPORT

Archerfield Airport is located just 17 kilometres from the Brisbane CBD, accessible via regular bus and train services.

INTEGRATED OPERATIONS

Our group’s integrated operations at Archerfield provide our students with access to live maintenance, charter and FBO operations, offering a unique learning opportunity.

EXPLORE MORE

See what Queensland has to offer and explore Brisbane and SEQ’s magical destinations.

www.visitbrisbane.com.au

www.queensland.com

A Vibrant & Relaxed City.

Brisbane is a green city with an enviable subtropical climate and culturally diverse population. It is one of the fastest-growing cities in Australia and is known for its year round good weather, vibrant urban precincts, outdoor lifestyle and friendly locals.

Within one hour of Brisbane are world-class, and often Heritage-listed, national forest and marine parks. To the east is the pristine Moreton Bay Marine Park with some of the world's largest sand islands, endless beaches and amazing marine life. To the west in the Scenic Rim are numerous national parks with beautiful forests, lakes, valleys, rivers and waterfalls.

LIFESTYLE

South-east Queensland offers an unrivalled quality of life, driven by comfortable climate, affordable living, extensive public transport and a wealth of culture and entertainment.

CONVENIENCE

Brisbane is easy to get around with great public transport. The city is connected to the world with daily flights to Asia, America and the Middle East, and just a couple hours from Australia's most iconic destinations.

CENTRE OF CULTURE (AND COFFEE)

Brisbane food is forging its own culture, with dedicated eat streets and a new breed of smart-casual eateries. Melbourne may have its laneways, and Sydney will always play home to gastronomic heavy-hitters, but Brisbane's fast-evolving food culture has created a whole new style of dining. Smart food precincts combine snacking, socialising and sunshine, without conforming to a single genre.

UNBRIDLED WILDERNESS

Brisbane is surrounded by a bounty of natural beauty that is completely free to explore. From heritage-listed rainforests to sand islands and bushland – the scenery around Brisbane city is so diverse that no two adventures will ever be the same.

Whether you are looking to escape the concrete jungle for the weekend or discover somewhere new to horse-ride, fish, bushwalk or cycle, get back to nature at one of these national or state parks around Brisbane.

HEART OF ADVENTURE

The wealth of activities available nearby is unparalleled, from theme parks, to skydiving, to the great unrelenting plains to the west of the city. Located just 60 minutes from the iconic Sunshine or Gold Coasts, those looking to explore the surf or take in the beach lifestyle are also well catered for.

Application & Terms and Conditions

Applying to Flight One Academy

The biggest challenge faced by individuals looking to train in aviation is understanding the process from enrolment to a lifelong career. There are multiple components to consider, from location, to duration, funding and practical training, in addition to professional licensing and apprenticeship. We are dedicated to and focused on training Australia's best aviation professionals. In doing that, our consultants will explain the complexity, help integrate any existing experience you may have, and ensure the experience at Flight One Academy is enjoyable.

At Flight One Academy, applying for a place in one of our courses is a simple online process, covering personal details, emergency contacts, identification and evidence of your existing education. Flight One Academy is an institution dedicated to education and we have taken every effort to make your aviation training affordable, flexible and convenient for the entirety of your time with the school.

Assessment information

Assessments for this programme are conducted and invigilated in accordance with the requirements of the Civil Aviation Safety Authority (CASA) and The Australian Skills Quality Authority (ASQA). Assessments may include, but are not limited to, multiple choice, short answer, short essays, group work under observation and practical assignments.

Application Process

If you have read the course information and you are eligible to join one of our courses, applying is easy and there is no application fee.

You will need to prepare some supporting documents and lodge your application through our online application form located on our website.

Once we have your application, our admissions team assess your application to ensure that you are suitably equipped to deal with your chosen course.

Successful applicants receive a Letter of Offer detailing the training plan, associated costs, terms and conditions for your consideration. Finalising your enrolment is then simply a matter of accepting your offer and paying the fees associated with your initial study period.

Required Documentation

You will need to prepare and upload some basic documents in support of your application. These should include at least:

- One form of ID such as Licence
- Your last 2 semesters of academic results or
- graduation certificate and results from high school
- Any other academic results you deem relevant

Entry Requirements - Flight Training

- Australian or Australian-equivalent high school year 12 completion with average or above results
- Passes in Maths and English
- (Physics preferred but not a requirement)
- Well organised and self disciplined

Entry Requirements - Certificate IV in Aeroskills

- Australian or Australian-equivalent high school year 10 completion with average or above results
- Passes in Maths and English
- (Physics preferred but not a requirement)
- A strong interest in machines, electronics systems and processes
- Well organised and self disciplined

Entry Requirements - Diploma of Aeroskills

- Australian or Australian-equivalent high school year 12 completion with average or above results
- Completion of Flight One Academy Certificate IV in Aeroskills or equivalent qualification delivered under a valid CASA Part 147 approval within the previous 10 years
- A strong interest in machines, electronics systems and processes
- Well organised and self disciplined

Lodge Your Application

If you have read the course information and you are eligible to join this course, applying is easy and there is no application fee.

Our simple online application form is located here: www.flightoneacademy.edu.au/apply.

We recommend that you prepare your documents beforehand as the form will request that you upload them.

If you require any assistance during your application process, please don't hesitate to contact us via the online enquiry form.

Alternatively, you can contact our student support team by emailing enquiries@flightoneacademy.edu.au.

Love Aviation?
So do we.

RECOGNITION OF PRIOR LEARNING

Flight One Academy operates a comprehensive Aeroskills Recognition of Prior Learning (RPL) service for individuals in industry who have either the existing experience, partial qualification, or superseded qualifications, and are looking to receive the latest industry qualifications and subsequent licensing. While we work to process your RPL, any units we believe will not be covered can be undertaken on campus or online to ensure convenience to both trainee and employer.

NEED MORE HELP? CONTACT US .

ENQUIRIES@FLIGHTONEACADEMY.EDU.AU

Our customer service team has years of experience across all spectrum of aviation training and is on standby to help you. To learn more about our training centre, courses, outcomes and academic paths, jump on our website or get in touch by email or phone. Also, we love having visitors, so feel free to ask for a campus visit appointment any time, to see our facilities and meet with an instructor face to face.
